

**Alabama Beemers'**  
**Exploring & Epicurean Society**  
ABEES

The ABEES Touring Guide is developed to encourage our club members to do more riding and less couch sitting and to explore the wonderful and some times very surprising sites and eateries that the great state of Alabama has to offer. So, the next time you think it's a great day for a ride, but where will I go, just pick out some of the Points of Interest and Restaurants from your ABEES Touring Guide, get on the bike, and go exploring. Your ABEES Touring Guide can also be used to help plan mini vacations in Alabama.

There are over 600 Points of Interest and Eateries listed here. All are identified with a code to point out the different categories such as covered bridges, vineyards, waterfalls and BBQ joints. Many of the eateries are from the "100 dishes to eat in Alabama before you die" publication, produced by the Alabama Bureau of Tourism & Travel in 2010. The others are our club member's suggestions. Most of the Points of interest are recommendations from club members. For more detailed information about the places listed here, go to our club's website [www.bmwmoal.org](http://www.bmwmoal.org) and click on the ABEES Restaurants and Points of Interest page.

This Touring Guide does not take all the work out of your hands. It points you to a specific location of the state where the sites can be found. It is up to the rider (or navigator) to find specific locations and plan their adventures. We encourage our riders to carry this guide with you so you can have some extra fun and pleasurable times as you travel Alabama on your motorcycle. We hope that each of our members and friends will use this guide regularly and always take time for new experiences. When you find interesting places, please send a few favorite photos and a little story about your discovery to our newsletter editor so it can be shared with other club members.
